

CHRISTINE KEMUNTO MAONCHA

SWAHILI LINGUIST | TRANSLATION • LOCALIZATION • LANGUAGE
QUALITY

Native Swahili Speaker | Telecommunications & IT Graduate

"Specialized in Swahili localization,
technical terminology,
proofreading & quality assurance."

PROFESSIONAL SUMMARY

Swahili linguist and Telecommunications & IT graduate specializing in English-to-Swahili translation, localization of technical terminology, proofreading, and language quality assurance. I have translated more than five books, in addition to technical, educational, media, and digital content. My approach goes beyond literal translation: I research terminology, preserve technical meaning, adapt language to the Swahili-speaking audience, and review content for accuracy, consistency, clarity, and cultural relevance. I combine native Swahili expertise with a technical understanding of IT and telecommunications.

- Detail-oriented, analytical, collaborative, and dependable.

TRANSLATION, LOCALIZATION & LANGUAGE QUALITY EXPERIENCE

Swahili Translator, Localizer & Proofreader

Freelance / Independent Projects | 2022 – Present

- Translate English content into accurate, natural, and culturally appropriate Swahili.
- Translate and localize technical terminology while preserving the intended technical meaning.
- Translated more than five books, maintaining terminology consistency, tone, readability, and meaning across long-form content.
- Proofread translated materials for grammar, terminology, consistency, clarity, and linguistic accuracy.
- Conduct language quality assurance (LQA), identify translation errors, and improve final-language quality.
- Research specialized and unfamiliar terminology and select Swahili wording appropriate to the technical context and target audience.
- Review translations for cultural relevance and natural Swahili rather than relying on word-for-word rendering.
- Use CAT and digital tools to support consistency, terminology management, and efficient delivery.

Technical & Bitcoin Content Translator (English → Swahili)

Independent / Community Projects | 2023 – Present

- Translate technical Bitcoin, technology, and educational materials into clear Swahili.
- Localize specialized terminology and maintain consistent technical vocabulary across documents.
- Proofread and review translated technical content for accuracy and consistency.
- Develop Swahili educational content and terminology for digital communities.

Media Translation & Subtitling

Freelance / Remote Projects | 2022 – Present

- Translate TV shows, documentaries, interviews, captions, subtitles, and scripts from English to Swahili.
- Adapt expressions and cultural references to sound natural and relevant to Swahili audiences.
- Review translated media content for accuracy, readability, consistency, and quality.

EDUCATION

Pwani University — Bachelor's Degree in Telecommunication and Information Technology

2021 – 2025

Kereri Girls High School — 2017 – 2020

Nyamagwa Primary School — 2006 – 2016

WHY I AM A STRONG LANGUAGE-TECH CANDIDATE

- Native Swahili expertise backed by formal Telecommunications & IT training.
- Hands-on translation experience across books, technical content, media, and education.
- Strong focus on technical terminology, localization, proofreading, and LQA.
- Able to understand the linguistic, cultural, and technical context of a project.
- Strong fit for AI language evaluation, multilingual data, localization, and Swahili language-quality work.

Swahili expertise • Technical terminology • Localization • Proofreading • Language quality
